

USB Vendor Class Driver
Update Manual
(for Windows 7,Vista,XP,and 2000)

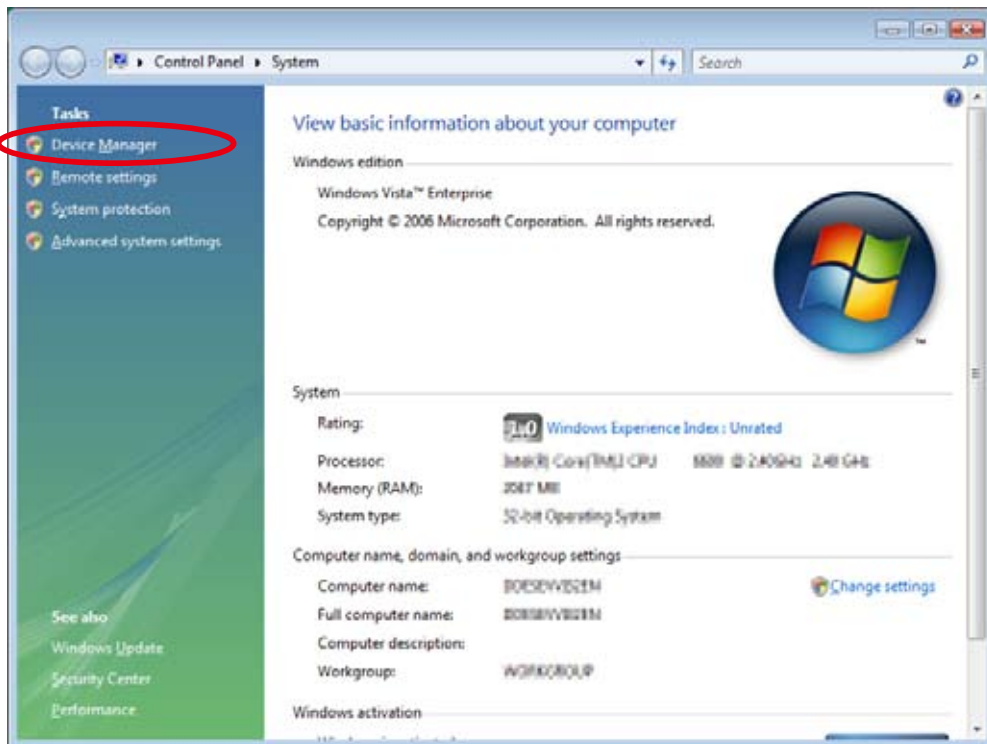

Contents

- 1. Windows 7/ Vista1
- 2. Windows XP5
- 3. Windows 2000 10
- 4. Revision History 15

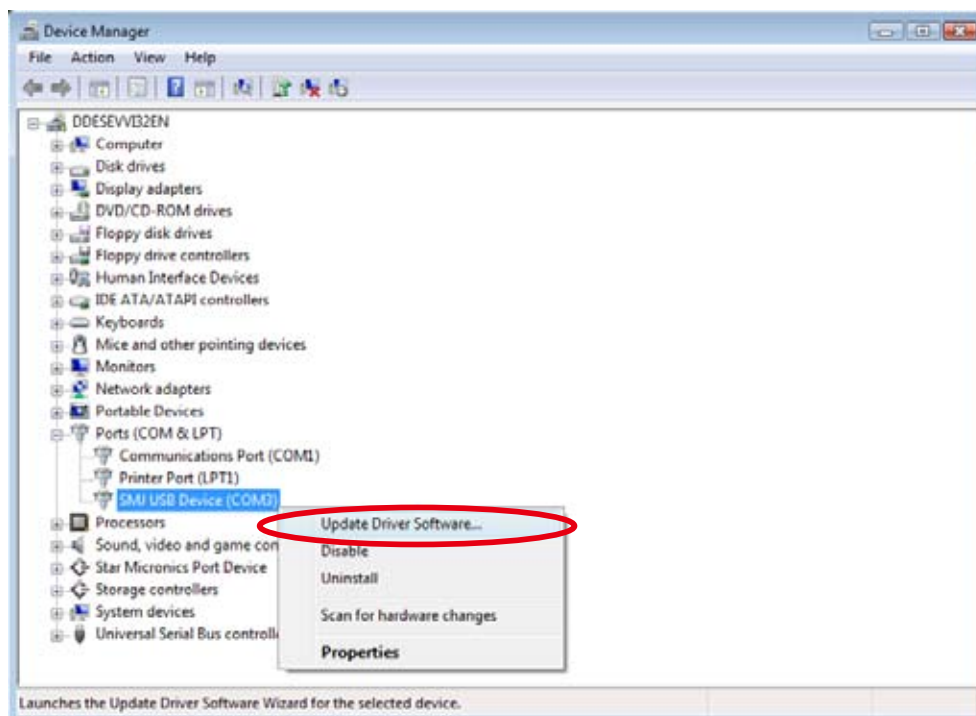

1. Windows 7/ Vista

To update the USB Vendor Class driver, first connect the printer to a USB port on your computer, and then turn the printer on. Then carry out the following steps.

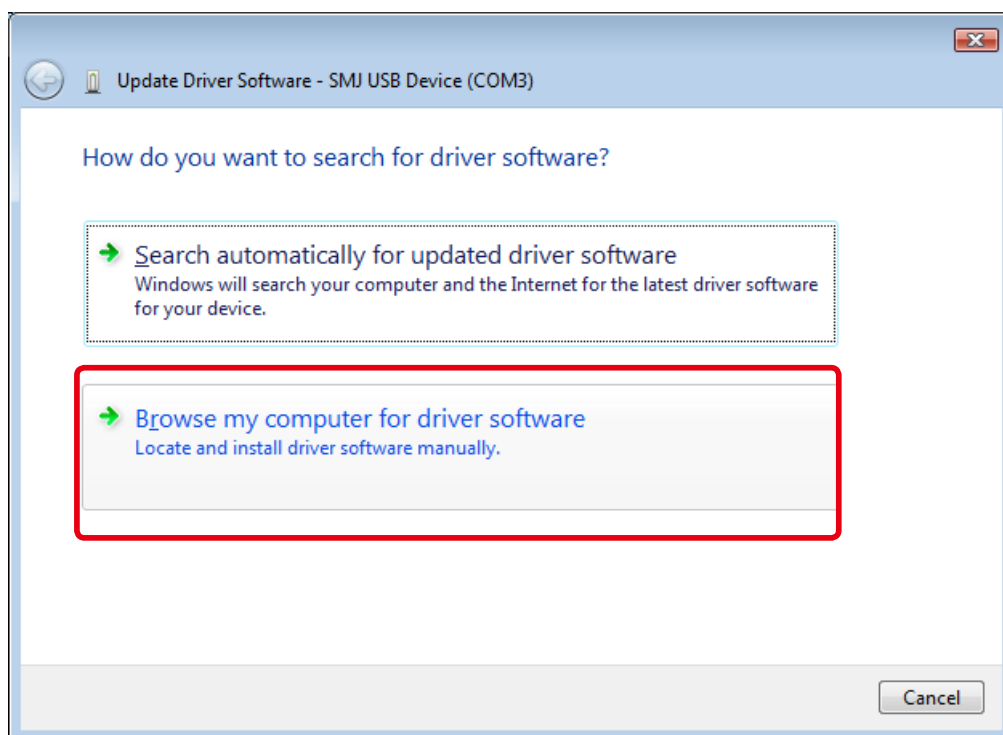

- ① Save the updated driver into any desired location on your computer's hard disk.
- ② Right click **Computer**, open **Properties**, and click **Device Manager**.

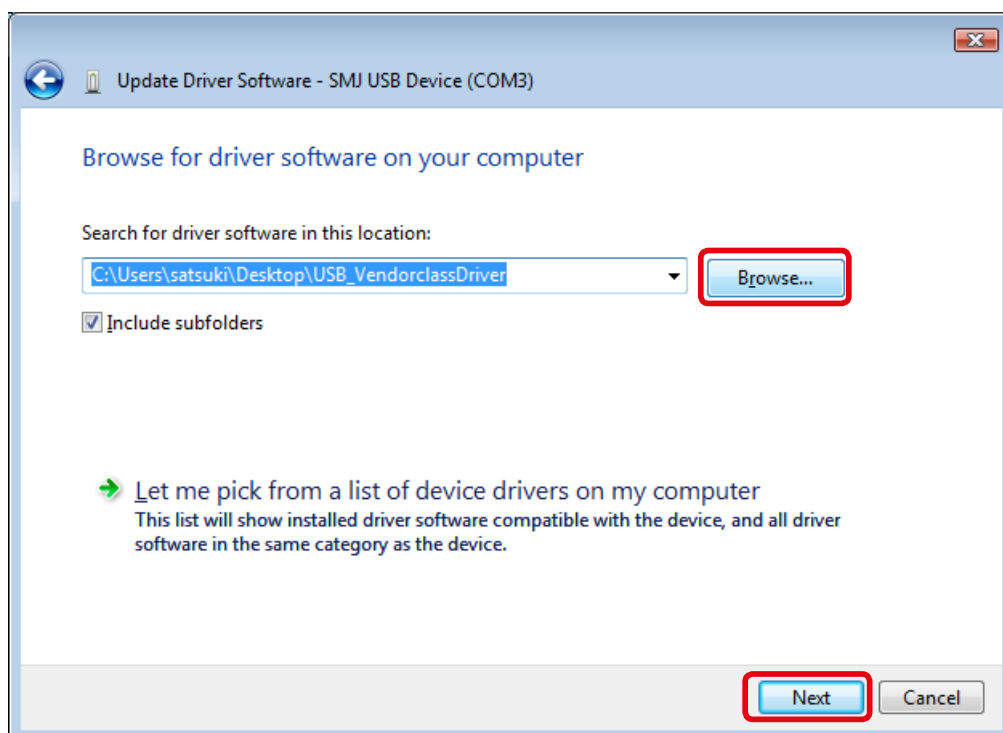

- ③ Open **Ports (COM & LPT)**, right-click **SMJ USB Device (COM3)**, and select **Update Driver Software**.

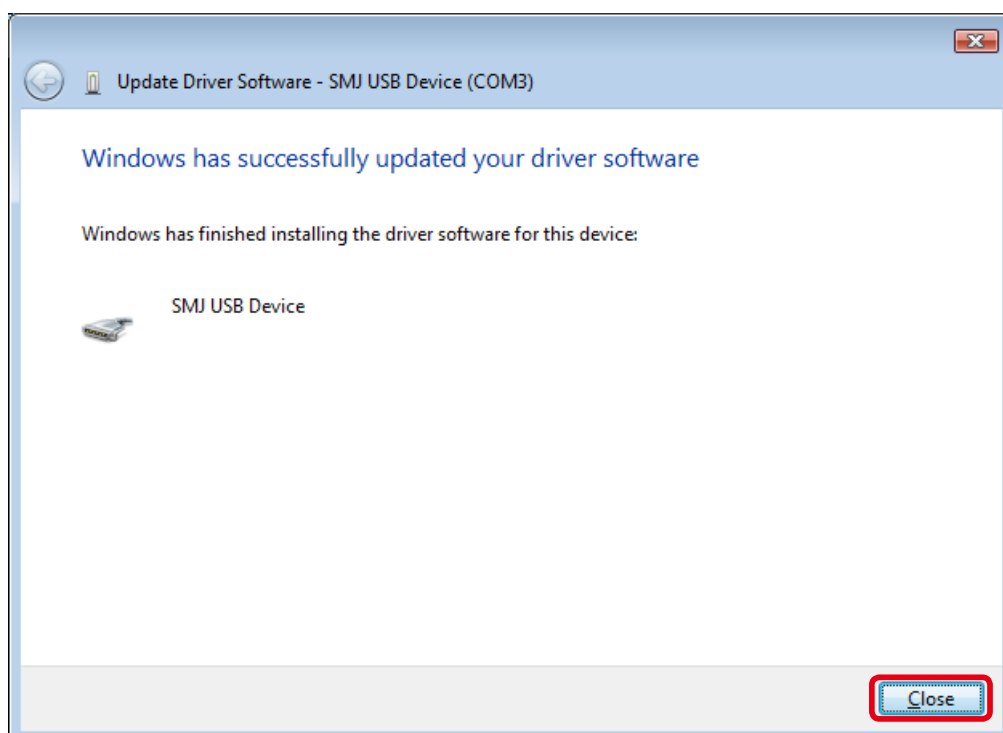

- ④ When asked how to search for the software, select **Browse my computer for driver software**.

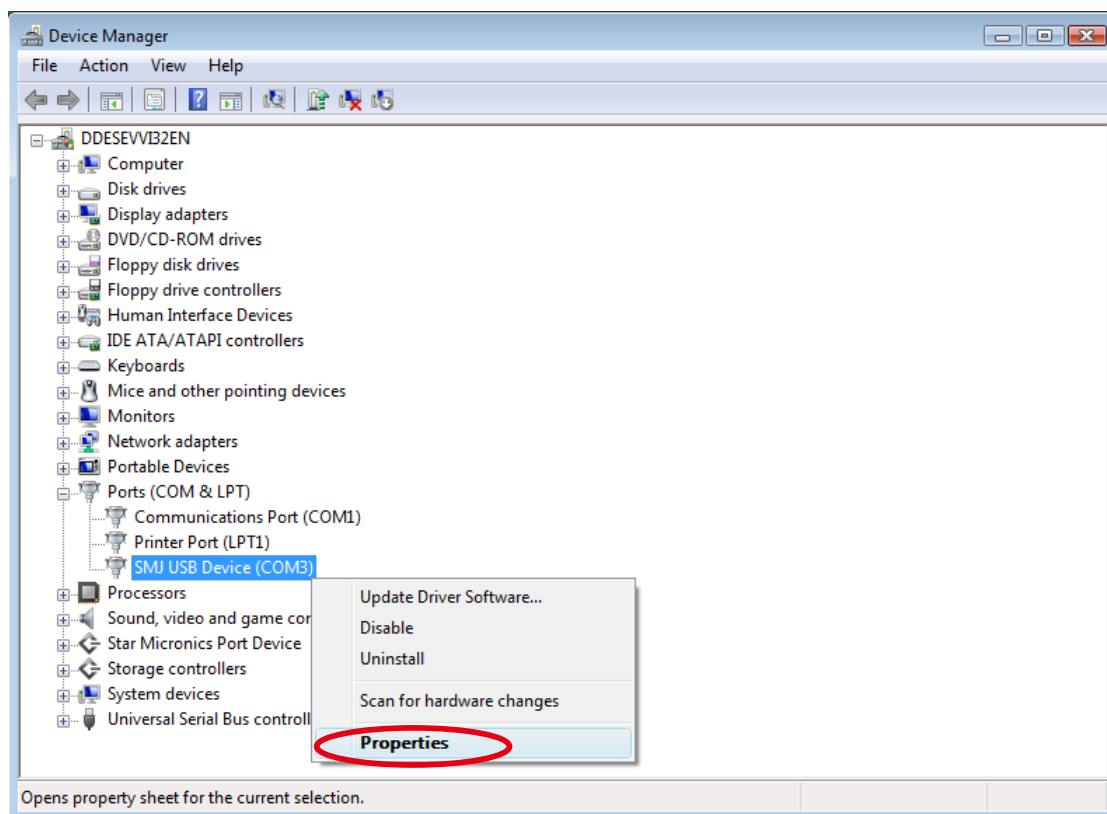

- ⑤ Click **Browse**, specify the location into which you saved the updated driver, and click **Next** to start the install.

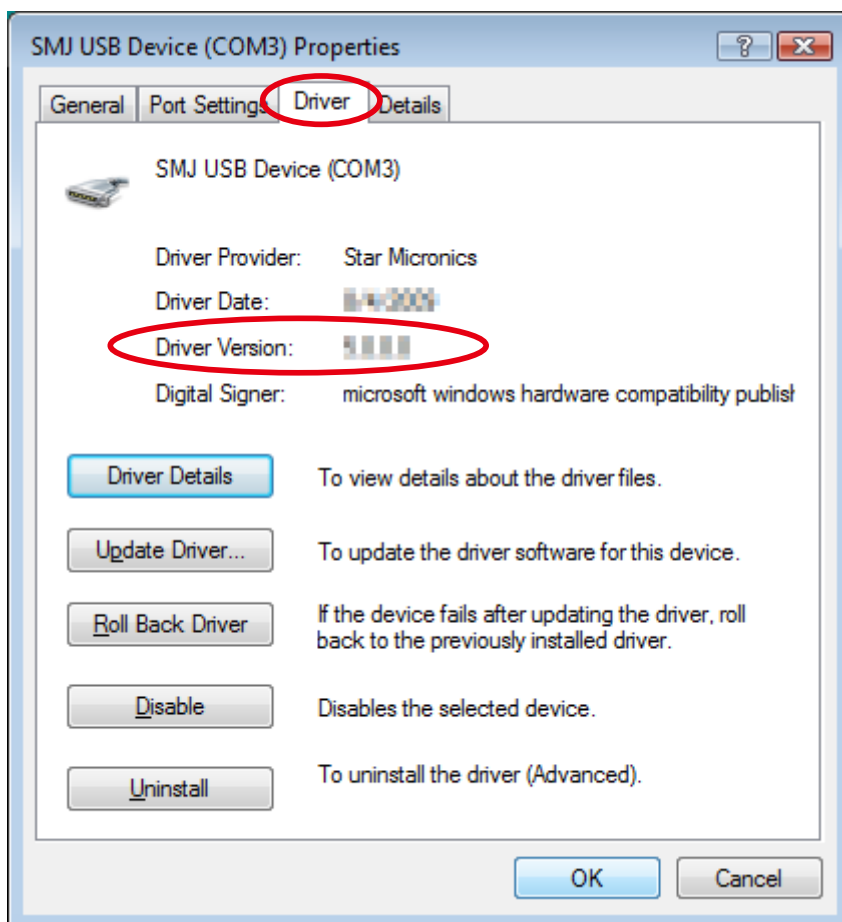

- ⑥ When installation is completed, you will see the message **Windows has successfully updated your driver software**. Click **Close** to close the window.

- ⑦ Open **Ports (COM & LPT)**, right-click **SMJ USB Device (COM3)**, and select **Properties**.

- ⑧ Select the **Driver** tab, and confirm that the version indicated on the screen matches the version of the updated driver.

Important: Note down the version number of the updated driver before installing it. After completing the installation, confirm that the version number under the **Driver** tab matches the version number that you wrote down. If the numbers match, the update was successful.

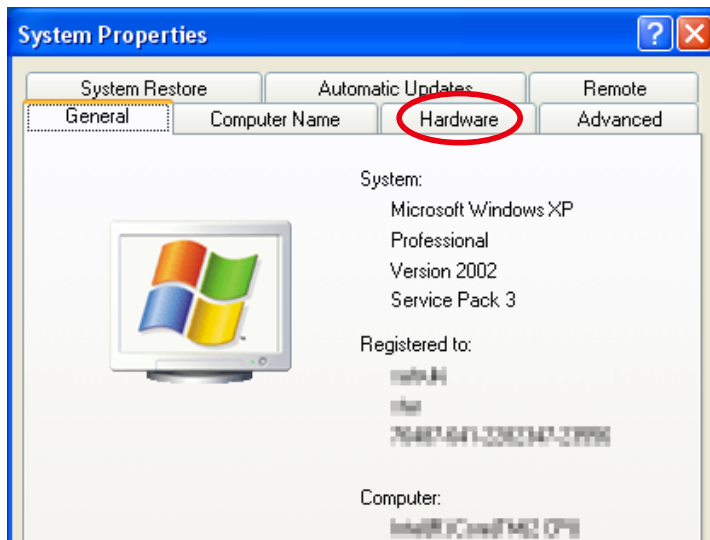

- ⑨ Turn the printer power off and then on again.

Updating of the USB Vendor Class driver is now completed.

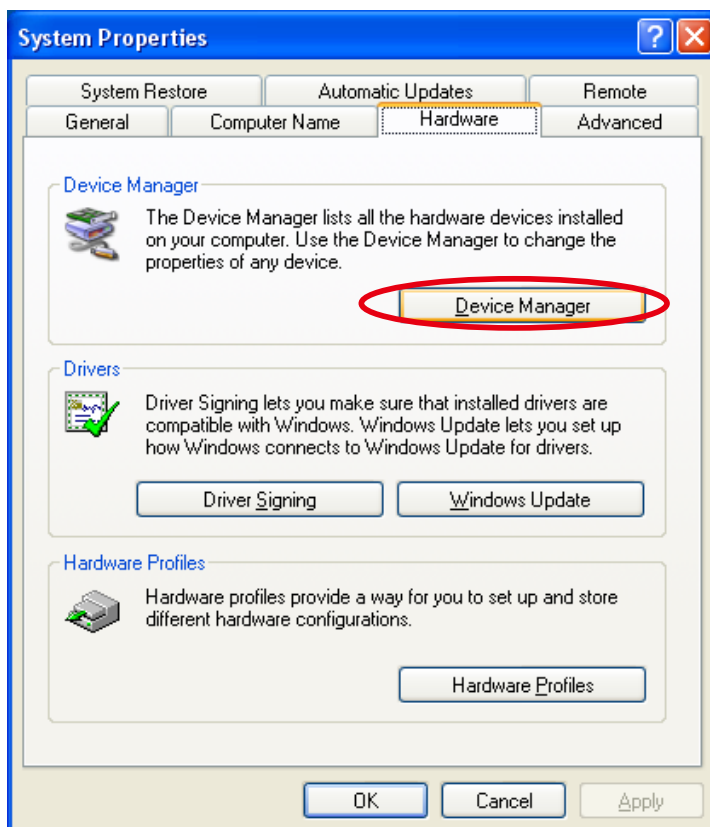

2. Windows XP

To update the USB Vendor Class driver, first connect the printer to a USB port on your computer, and then turn the printer on. Then carry out the following steps.

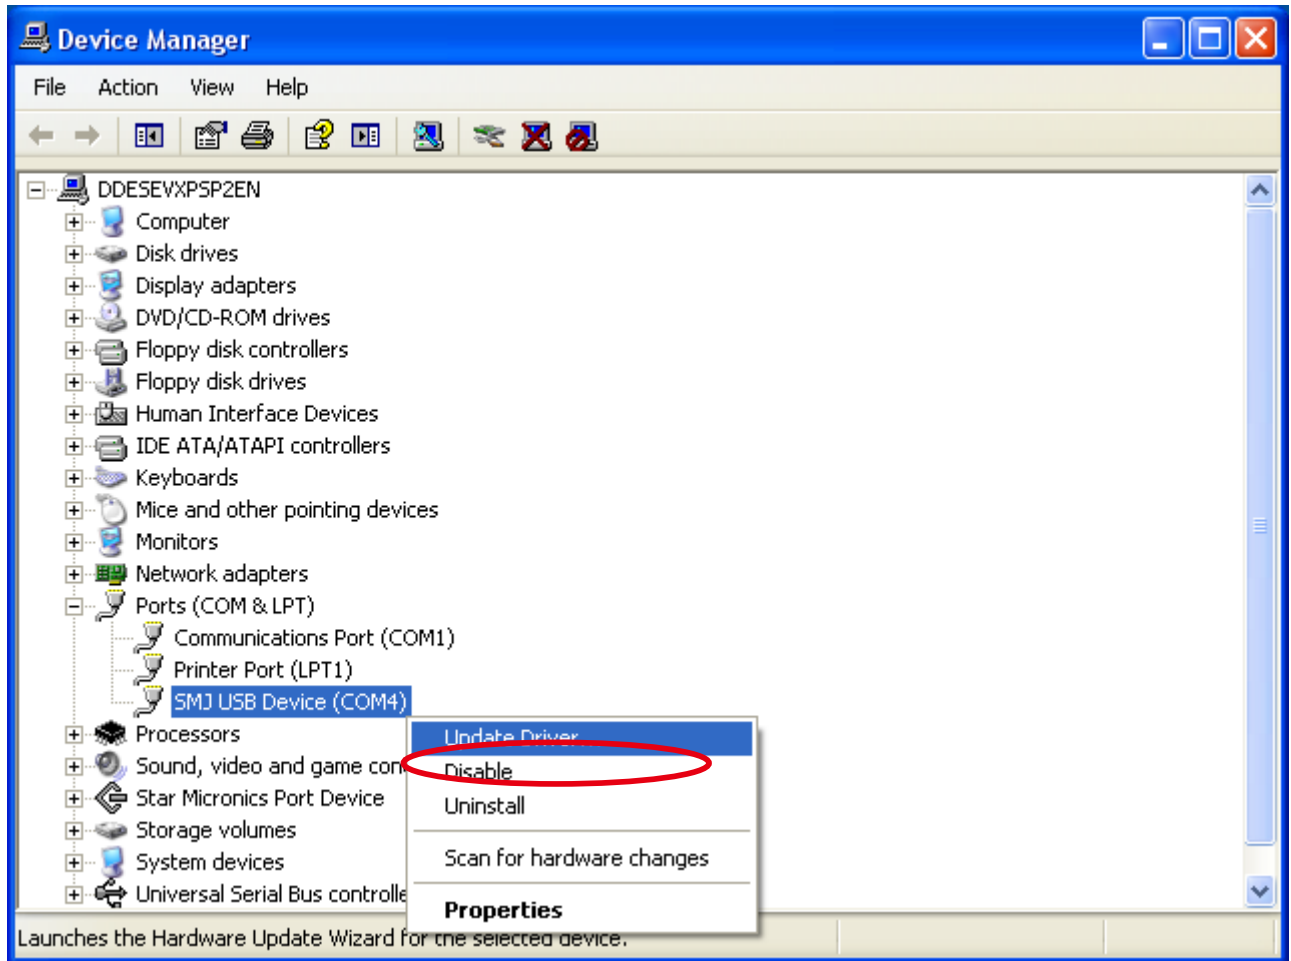

- ① Save the updated driver into any desired location on your computer's hard disk.
- ② Right click **My Computer**, open **Properties**, and click the **Hardware** tab.

- ③ Click **Device Manager**, so that the Device Manager opens.

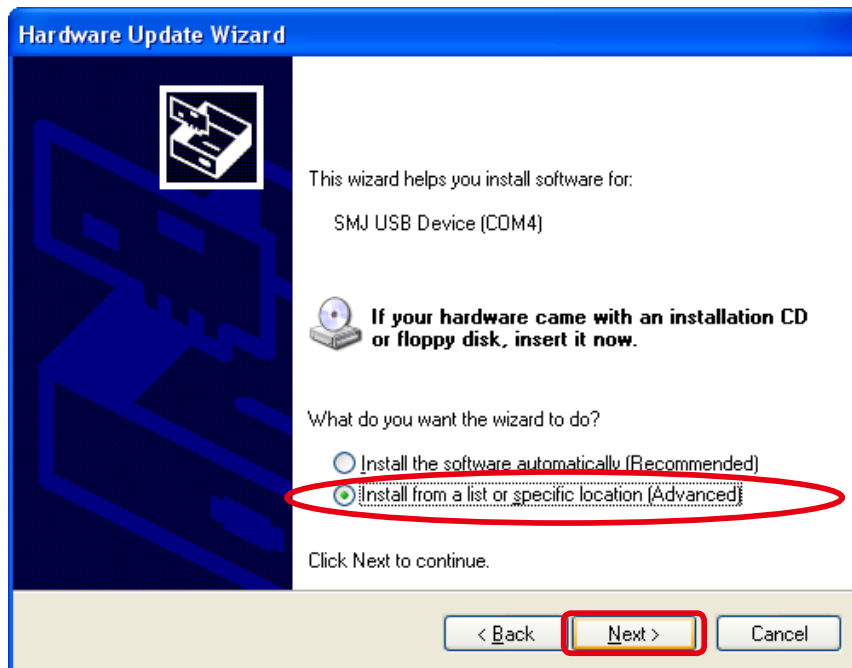

- ④ Open **Ports (COM & LPT)**, right-click **SMJ USB Device**, and select **Update Driver**.

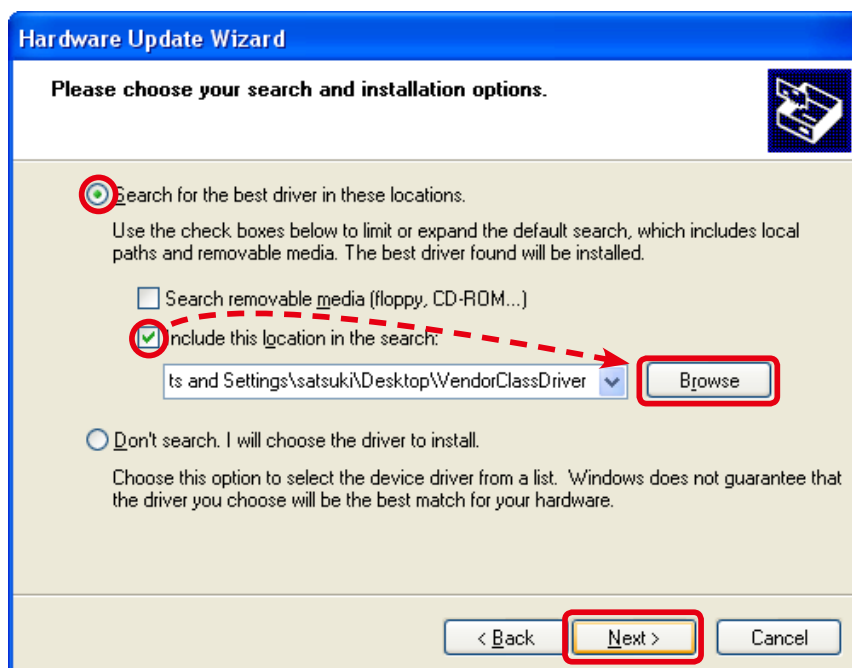

- ⑤ The **Hardware Update Wizard** opens. Under the question about whether to connect to Windows Update, select **No, not this time**, and then click **Next**.

- ⑥ The wizard asks what to do. Select **Install from a list or specific location**, and click **Next**.

- ⑦ Select **Search for the best driver in these locations**, place a check next to **Include this location in the search**, click **Browse**, specify the location into which you saved the updated driver, and click **Next**.

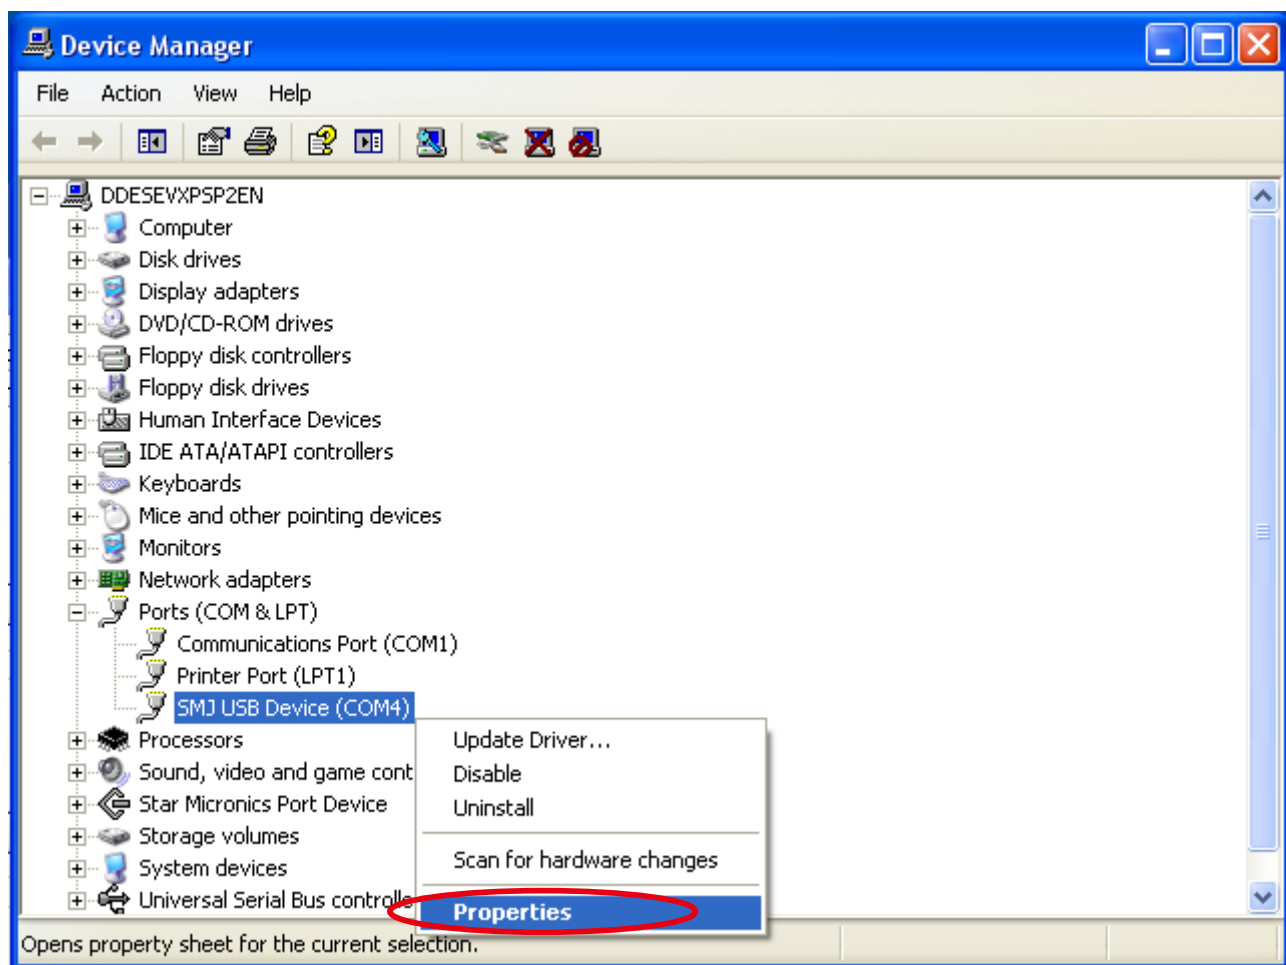

- ⑧ The computer installs the updated driver.

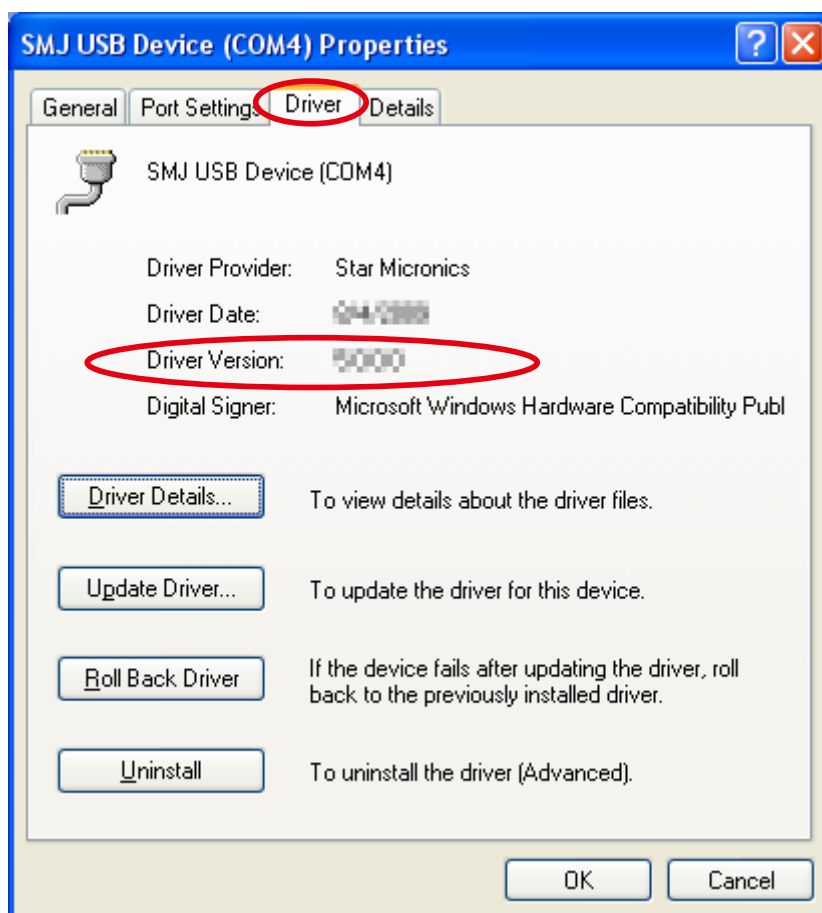

- ⑨ When installation is finished, **Completing the Hardware Update Wizard** appears. Click **Finish** to close the wizard.

- ⑩ Open **Ports (COM & LPT)**, right-click **SMJ USB Device**, and select **Properties**.

- ⑪ Select the **Driver** tab, and confirm that the version indicated on the screen matches the version of the updated driver.

Important: Note down the version number of the updated driver before installing it. After completing the installation, confirm that the version number under the **Driver** tab matches the version number that you wrote down. If the numbers match, the update was successful.

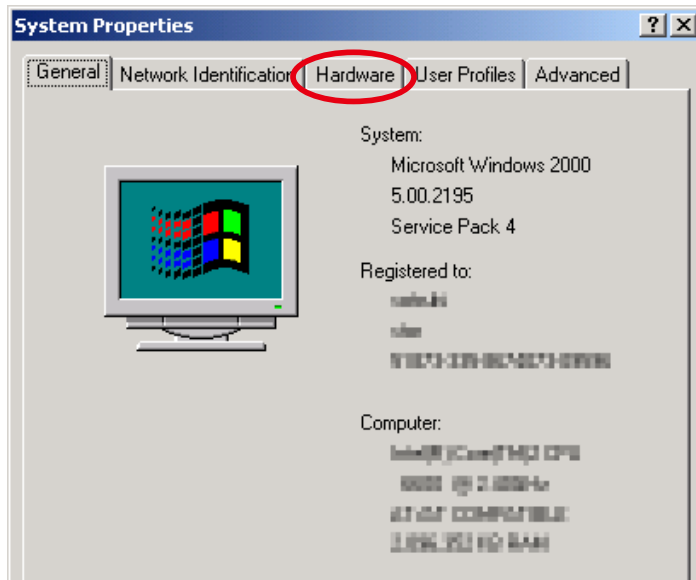

- ⑫ Turn the printer power off and then on again.

Updating of the USB Vendor Class driver is now completed.

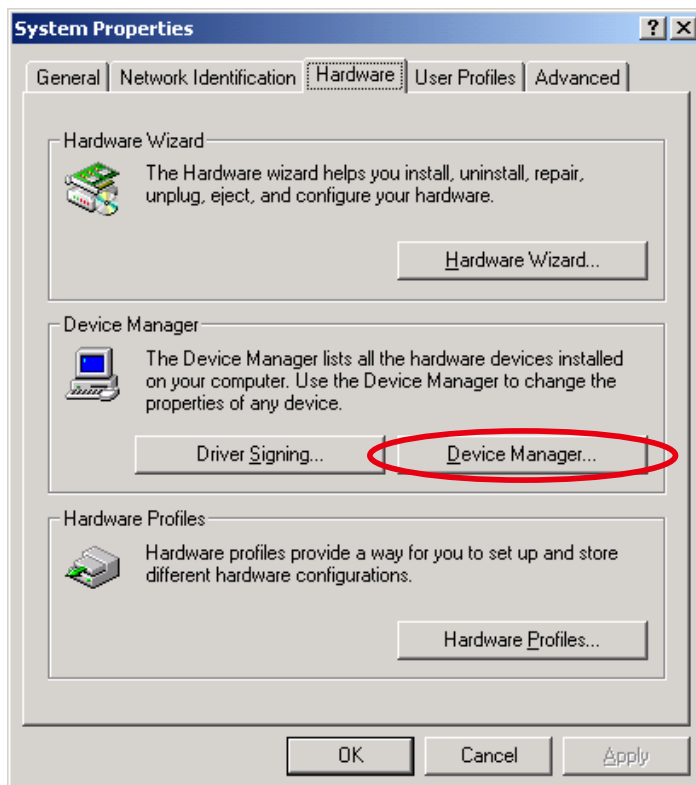

3. Windows 2000

To update the USB Vendor Class driver, first connect the printer to a USB port on your computer, and then turn the printer on. Then carry out the following steps.

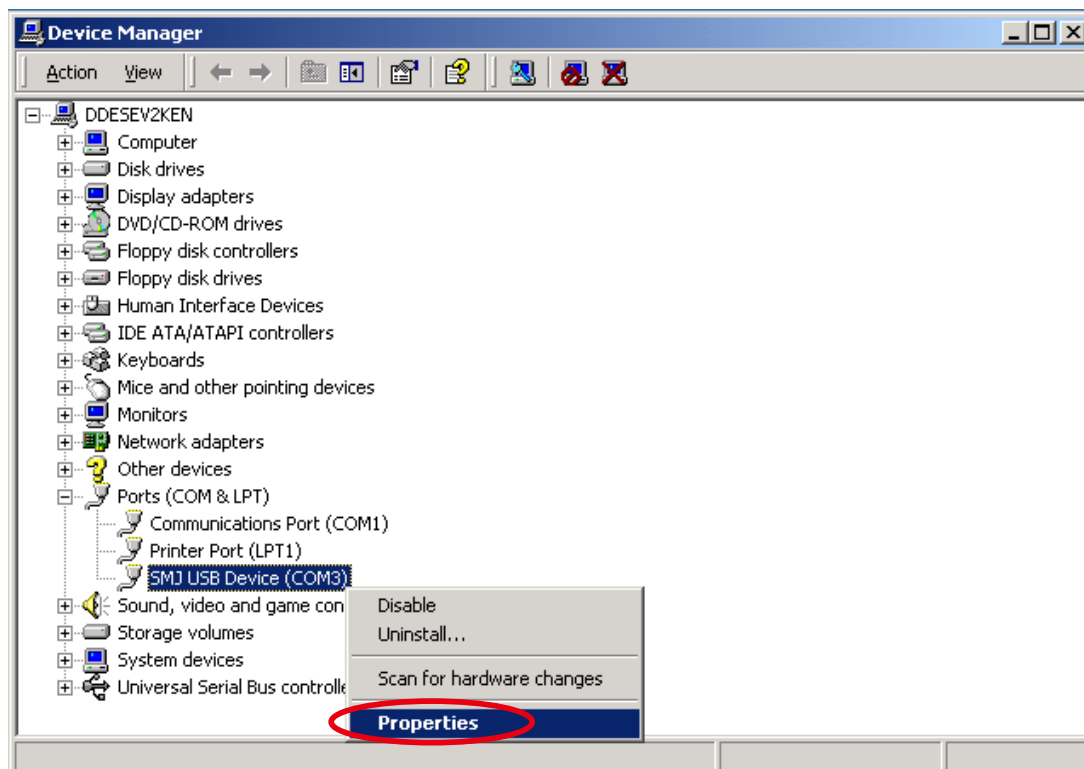

- ① Save the updated driver into any desired location on your computer's hard disk.
- ② Right click **My Computer**, open **Properties**, and click the **Hardware** tab.

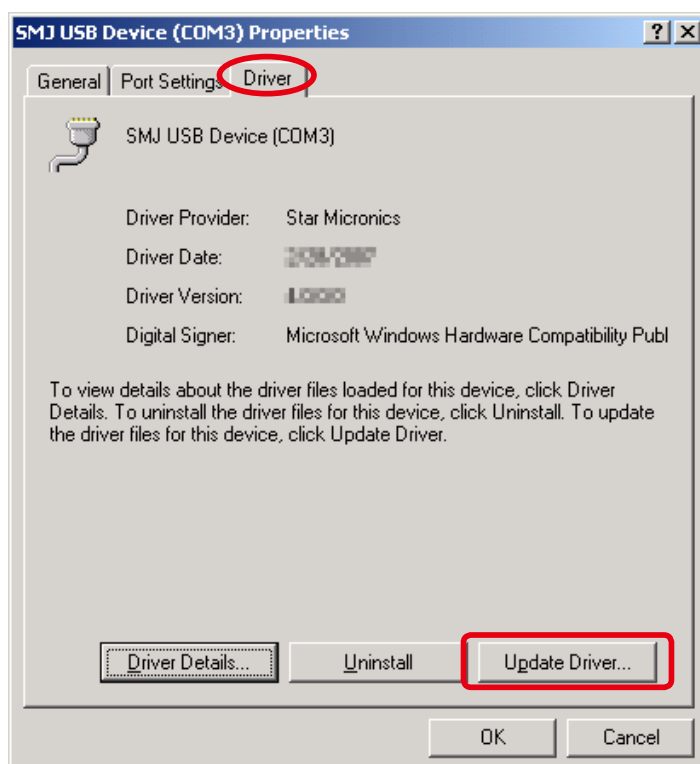

- ③ Click **Device Manager**, so that the Device Manager opens.

- ④ Open **Ports (COM & LPT)**, right-click **SMJ USB Device**, and select **Properties**.

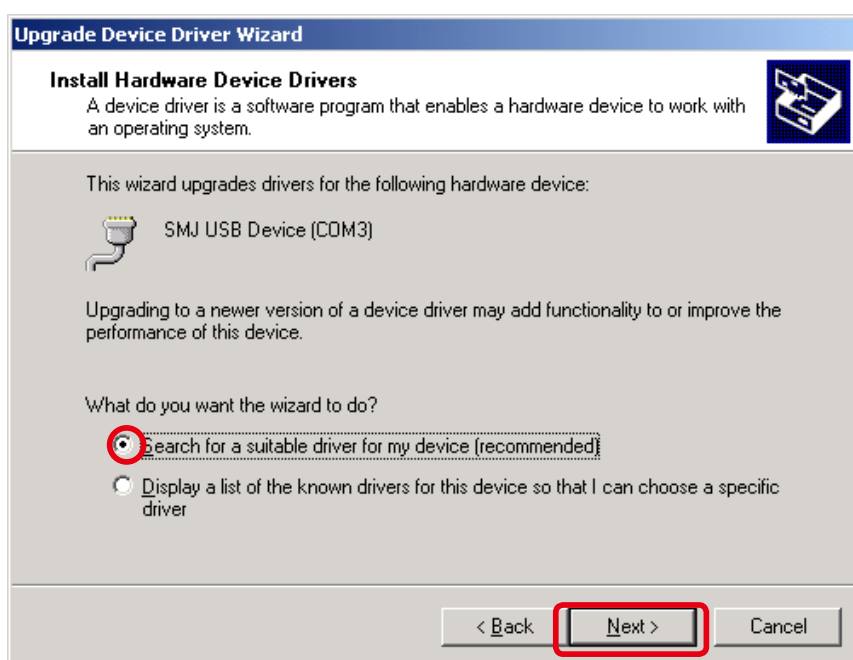

- ⑤ Select the **Driver** tab, and click **Update Driver**.

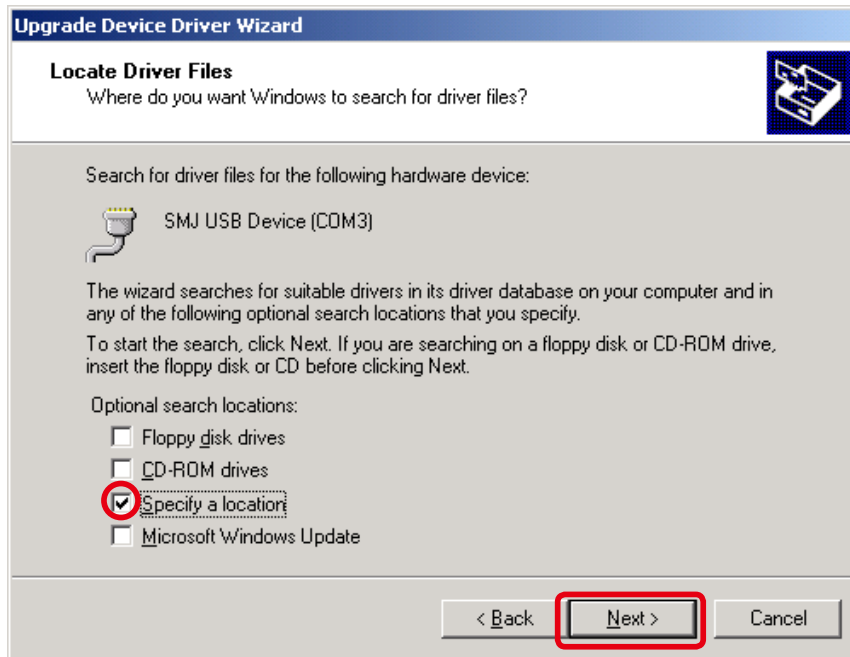

- ⑥ The Upgrade Device Driver Wizard opens. Click **Next**.

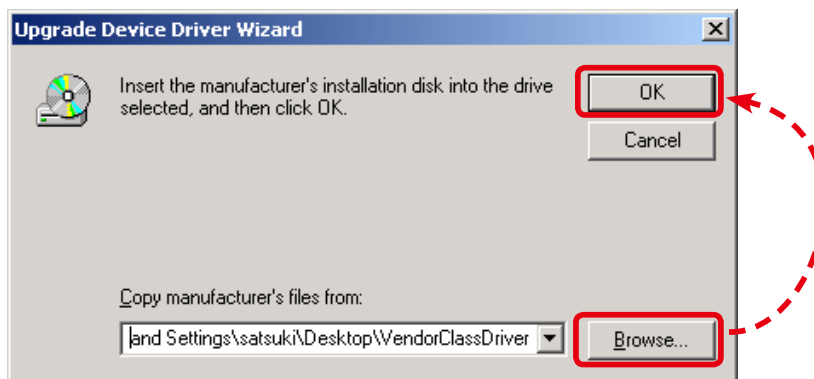

- ⑦ The wizard asks what to do. Select **Search for a suitable driver for my device**, and click **Next**.

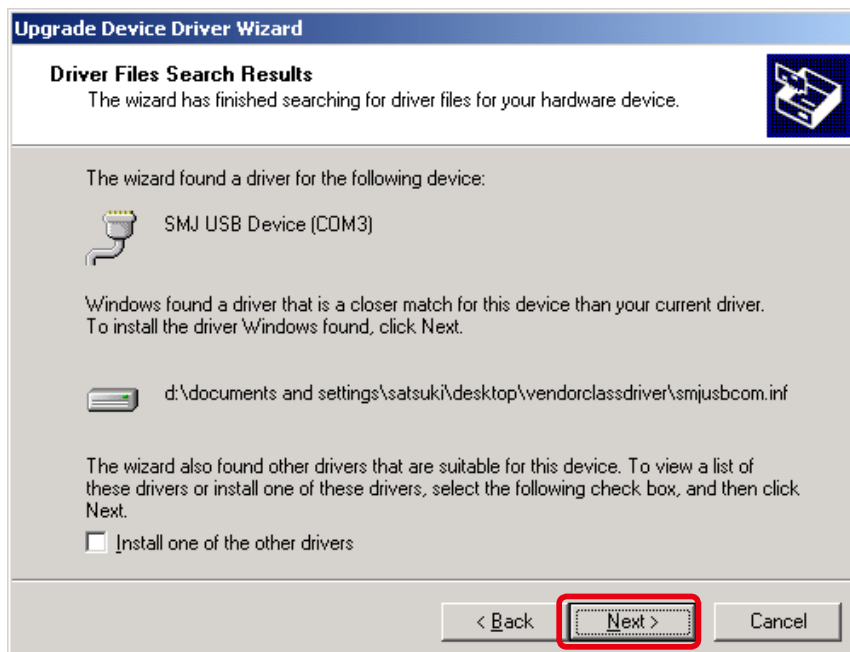

- ⑧ Check the box next to **Specify a location**, and click **Next**.

- ⑨ Click **Browse**, specify the location into which you saved the updated driver, and click **OK**.

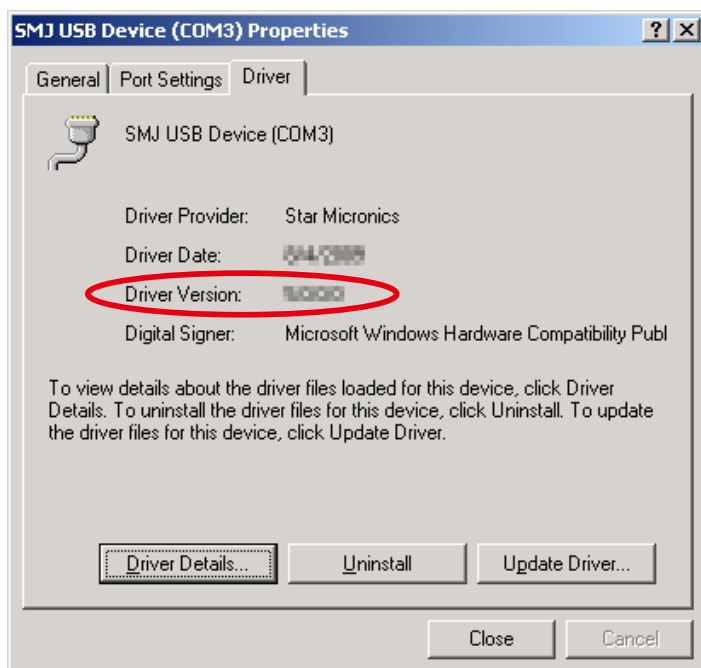

- ⑩ Confirm that the search results are correct, and then click **Next** to start the install.

- ⑪ When installation is finished, **Completing the Update Device Driver Wizard** appears. Click **Finish** to close the wizard.

- ⑫ Check the driver version.

Important: Note down the version number of the updated driver before installing it. After completing the installation, confirm that the version number under the **Driver** tab matches the version number that you wrote down. If the numbers match, the update was successful.

- ⑬ Turn the printer power off and then on again.

Updating of the USB Vendor Class driver is now completed.
